The pulpit and choir gallery were nicely decorated with beautiful, flower-covered house plants. The special music, consisting of solos, quartets and anthems, furnished by the church choir, were applicable and exceedingly well executed. A tea meeting and musical entertainment will be held in the church this evening when Dr. Scrimger, who has kindly consented to remain over will give an address.

—A very heavy shower of rain fell on the exhibition grounds this morning while the sun was shining up town.

## LOCAL

—The train was one hour late in leaving Red Deer.

—The weather continued cloudy with occasional light showers of rain.

—Williamson Bros. will ship one car of one hundred and thirty hogs to Calgary tomorrow.

—The central frame part of the Queens hotel will shortly be moved to the rear and a modern brick building will be erected in its place, the front part being 30x30, and the rear 40x40.

—Gedolpin, the thoroughbred Clydesdale stallion belonging to the Stoney Plain syndicate, was taken to Calgary on Saturday to be exhibited at the fair there.

—Owing to the provincial elections in Manitoba the Western Canada Press excursion, which was to have left Winnipeg on Friday next has been postponed for the present.

—A. R. Tomlinson, having severed his connection as accountant with the Hudson's Bay company, has opened an office next to the Hudson's Bay Company's stores, where he will carry on the business of accounting and auditing.

—Messrs. Crockett and Blum have met with the greatest success in navigating the Saskatchewan with their gasoline launch. The city council and representatives of the local press, have been invited to take a trip up the river tomorrow evening.

—Olds Oracle, June 3rd. — W. E. Smith, who lives about fourteen miles east of town met with a severe loss on Saturday last. During a thunder storm his barn was struck by lightning and destroyed, together with his stable and contents. The loss will be heavy, as no insurance was carried.

—Preparations for moving the frame part of the Alberta hotel out on Fraser avenue have been commenced, and a large five storey (including basement) brick building will be erected in its place. There will be a large increase in the number of rooms and the whole hotel will be fitted up with the most modern appliances. The work will be proceeded with at once.

—Free Lance—June was a very busy month at the Industrial Creamery. The month began on the 2nd and ended on the 27th, and during that time 21,044,7 inches of cream were manufactured into 25,974 pounds of butter. In addition to this 618 1-2 dozen eggs were received and shipped. The butter business shows an increase of 52 1-2 per cent. over the corresponding month last year. The output in June 1902, being 16,440 pounds.

—The Orange Lodges of Alberta are holding a county celebration in Calgary on the 13th. A special train will leave Strathcona next Sunday evening and will leave Calgary Monday evening on the return trip. A number of delegates will attend from Edmonton. The Fort Saskatchewan Orange Lodge held a local celebration at the Fort on the 13th when a number of the Edmonton lodges will be present.

—From the number of first class prizes gained by the pupils of the convent, F. J. C., at the recent exhibition for drawing of objects, map drawing, etc., an idea may be formed of the excellence of the work done in our convent schools. Friends and well wishers desire to offer their congratulations, through the medium of the Bulletin, to the reverend sisters and their pupils for having awarded to the most creditable selection of school exhibits offered this year by Mr. J. H. Picard.

—Albertan—As was indicated in the Albertan Tuesday the teamsters' strike was called off on Tuesday night at a full meeting of the union. The strike lasted one month. This decision placed the carpenters in a position to deal with the carpenters' trouble. A deputization of carpenters waited on a number of contractors Wednesday and will conclude their canvass this morning. They propose a somewhat different agreement to that before the strike. They are willing to work with non-union men, provided that non-union men are not permitted to change bosses to the end of the season.

## BROME GRASS

The Olds Oracle has the following to say with reference to the growing of Brome grass:—

Brome grass between two and three feet high in June is an object lesson to the haymakers who spend half the summer skinning for hay swamps, only to find one-half of them too wet and the other half too dry. And that is to be seen today on the farms of those who had the enterprise to plant it. Once started it is independent of almost any kind of season and gives the farmer a haying time when there is no rush for other work. Then look at the comfort of working in a dry field at home instead of some fly-infested slough miles away. A large number of up-to-date farmers in the country have their field of brome grass, just as in the provinces they had their fields of timothy and clover. Those who have not tried it should lose no time in beginning."

## Honors for American Fleet

London, June 30.—When the American squadron reaches Portsmouth it will not lie at Spithead, which is the usual place for foreign warships, but it will be brought into Portsmouth harbor itself.

Never before has such an honor been paid to a squadron of a foreign power, for it will place the American warships actually within the gates of the Empire's chief arsenal.

Kiel, June 30.—The United States squadron sailed at six p.m. today from Kiel. The flagship Kearsage, the Chicago and San Francisco will go through the Cattagatt, stopping at Kallundborg, Denmark, for two days' rest. The Michigan will go by way of the Kiel canal to Brunsbuttel and thence will rendezvous with the other American ships south of Spithead. The squadron will arrive at Portsmouth July 7.

## ASTLEYVILLE NEWS

The crop outlook in Astleyville district this year is very favorable, and the increase of land under crop over last year is very encouraging for this district. We have not been able to secure the exact amount of acreage under crop, but as accurately as we can get it, in the district at the present time, there are about six hundred acres, an increase of about 120 acres over last year. The majority of the farmers in this district are growing oats this year, only about one-sixth of the crop will be wheat. There is very little barley sown this year, as it seemed rather scarce in the spring and many farmers were not able to procure any for seed. The soil at Astleyville is considered rather light, but it is here that the good crops are grown. In wet seasons it is all right and in dry seasons we have water so near the surface and it is all right and no district presents a prettier sight than Astleyville just now. The crops look splendid with every prospect of an abundant harvest.

## HORSE HILLS

Notwithstanding the fact that the spring was later than usual, the crops in this district are progressing exceedingly well. The prevailing dry and warm weather with occasional showers has left nothing to be desired for a perfect growing season. Although the season is two weeks later than last year there is no doubt that if the present favorable weather continues, the grain will mature as early as last fall. The ending of the winter occurred as early as could be desired, nevertheless, the cold, raw weather of April and May was the chief cause of the retarded condition of all vegetation.

It must be taken into consideration that although this is one of the most fertile and productive districts of the world, it lies north of the 53rd parallel of latitude and the slight disadvantages which we have had this spring are incomparable to that which has occurred in many other countries. In Sunny France as well as in several other European and American places, which lie much further south than here, frost, drought and excessive rains have this season caused extensive damage to growing crops.

The straw will be shorter than usual this year, which will be a great advantage for the harvesting.

With the land which was summer-fallowed and the new land broken in increase over last year in land under crop is about twenty per cent.

The prospects for a good crop could not be more promising.

## POPULAR LAKE

Owing to rain on Tuesday the 23rd the Popular Lake school picnic was postponed till Saturday the 27th. Quite a crowd was present and all seemed to enjoy themselves.

A feature of the program was a football match between the Hornets, of Tarnip Lake, and the Popular Lake team. Result, another victory for Popular Lake, score 3 to 1.

The Light Brigade football team, of Popular Lake, also played the Maple Leaf football club from Belmont, but owing to a shower, the game stopped after about twenty minutes play.

The following is a list of the races:

## Girls' Races.
